EXPERIENCE

EaziThenga, Cape Town South Africa — *FrontEnd Developer*

SEP 2022 - DEC 2022

Created a responsive website using ReactJS and TailwindCSS. This involved developing custom features like a dynamic homepage and a signUp form with server-side validation.

Built online storefronts for small businesses using ReactJS, leveraging a variety of tools and techniques to create functional and attractive e-commerce sites.

Leveraged Git for version control during the development of the website and ultimately deployed the final product to a hosting platform.

N-Hub Nigeria, Plateau Jos — *FrontEnd Developer Intern*

JAN 2022 - JUL 2022

Incorporated custom functionality into the website Using **Html**, **CSS**, and **Javascript**, including a homepage slider and a contact form with server-side validation.

Created landing pages, dashboards, and web applications using **Reactjs** and **CSS** and **Nodejs/Expressjs** for the BackEnd.

I used **SCRUM** and **Agile** to manage a web project, learning skills in project management, collaboration, communication, and problem-solving. This included estimating task time, tracking progress, holding meetings, integrating code, testing, receiving feedback, and sprint reviews.

Optimized images and code to increase Time on Page by **30 seconds** on **3+ websites**.

Extracted and analyzed data from a piece of extensive customer information database, with their UID to reference specific records using Firebase and Firestore.
